

The Artist's Palette

Italian Charm Bracelet Instructions

To add charms to a bracelet, please use the following instructions:

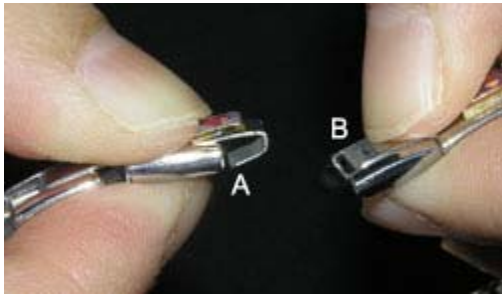

First, take the bracelet and stretch it, this should show you how each of the links in the bracelet attaches to the ones next to it by hooking around a small piece of metal on one end.

To attach new charms, unhook the bracelet where you would like to add a new

link. (You might use a tapestry needle or ballpoint pen to help push the link out so that you can undo the hook)

Once the bracelet is open, hook the link around the thin metal piece of the charm you wish to add.

Once you have added the charm (or charms) reseal the bracelet by hooking the new charm (A) to the thin metal piece (B) of the other end of the bracelet.

If you have any additional questions, please feel free to contact us at info@ArtistsPalette.com
